Introduction:

Builders Merchant Building Index

This **Builders Merchant Building Index (BMBI)** report contains data from GfK's ground-breaking Builders Merchants Panel, which analyses data from over 92% of generalist builders' merchants' sales throughout Great Britain. GfK's Builders Merchant Point of Sale Tracking Data sets a gold standard in reliable market trends. Unlike data from sources based on relatively small samples or estimates, or sales from suppliers to the supply chain, this up-to-date data is based on actual sales from merchants to builders and other trades. It's therefore a very good proxy for housing RMI.

The monthly series tracks what is happening in the market month by month and includes an in-depth review every quarter. BMBI Index data is calculated on the 12-month base period January 2022 to December 2022.

Executive Summary

Short of time and just want to read the headlines? Download an Executive Summary that provides a snapshot of value sales and trends from Britain's Builders' Merchants for January 2024 [here](#).

BMBI Expert Panel

MRA Research produces the Builders Merchant Building Index, a brand of the BMF, to communicate to the wider market as the voice of the industry as well as the voice of individual Expert Brands. **Meet the Experts and read their comments on pages 5 and 6 of this report or read their previous comments [here](#).**

Recognition for BMBI

One of the aims of BMBI is to reach across and beyond construction. It's now syndicated to a growing number of trade magazines in different sectors on a regular basis. Outside the industry, economists, banks, consultancies, investment bodies and the big accountants regularly refer to it and BMBI is referenced alongside the Office for National Statistics (ONS) data in the Government **Department for Business & Trade** monthly construction update. **Download the latest update [here](#).**

More data available

This BMBI report provides valuable top-level indices but there's considerably more data available. GfK insights go much deeper and include sales value data. GfK can quantify market values and drill down into contributing categories, tracing product group performance, to focus on aspects that are critical to you.

GfK can also produce robust like-for-like market comparability tailored to the requirements of an individual business. As more merchants join to submit their monthly sales-out data the quality of this information can only become more extensive and rigorous. Merchants or suppliers who are interested in acquiring data or getting involved should contact **Emile van der Ryst** at emile.van-der-ryst@gfk.com.

The Expert Panel

Speaking for their markets - 1

The Builders Merchant Building Index (BMBI) includes a panel of industry Experts. In each quarterly report they comment on the market, with a particular focus on the story behind the trends. Experts are leading brands, or brands aspiring to become leaders, who are the voice of their markets.

The Q4 2023 report, which includes commentary from our experts is available [here](#)

From 80% to 92% of the market

The year 2023 closed with a significant relaunch of the Builders Merchant Building Index (BMBI) report, featuring builders' merchants' sales data to builders and trades people covering 92 percent of GB national sales, up from just over 80%.

Launched in 2015 as a brand of the Builders Merchants Federation (BMF), BMBI uses data from GfK's ground-breaking Builders Merchants Panel, The panel captures generalist builders' merchants' sales throughout Great Britain to builders and trades people who are directly involved in repairing, maintaining, and improving Britain's 27.7 million homes. The recent addition to the panel of Huws Gray, JT Dove and CMO Stores, mean the data now tracks the sales of 92 percent of builders' merchant branches making it the most accurate, comprehensive monitor of market performance available.

The monthly BMBI report is well used by merchants, their larger customers and suppliers and by construction generally. It is also used by companies and organisations outside construction, who want to know what's happening, what's important and why. The why is provided by leading brands of building materials, components and software – the BMBI Experts - who make sense of the trends and issues.

The website is regularly visited by economists and advisors, the national media, the big banks, big six accountants, management consultants, private equity, investors and funds, financial institutions and Government, anyone in fact who needs to know the trends and what is driving the trends in a complicated and fragmented industry.

In the EU and America, readership is growing rapidly, and the BMBI website gets regular hits from the US Senate, US State Department, individual senators, and the Bill & Melinda Gates Foundation to name a few.

"Since its inception in 2014 GfK's Builders Merchants leaderpanel has become a key market barometer through its usage in the BMBI," says **Emile van der Ryst, Key Account Manager – Trade & DIY at GfK – an NiQ company**. "It's become a reference point for industry leaders, financial institutions, and government organisations.

"After a relaunch of the data in 2020 we are now pleased to announce the latest relaunch, which came into effect with the October 2023 dataset. The key missing market contributor, Huws Gray, is included for the first time alongside CMO Stores and JT Dove, both well-known market players.

"This is an exciting new chapter for the service which we believe is a crucial step in providing a relevant and important view of the market, especially in these challenging economic conditions."

"Since its inception in 2014 GfK's Builders Merchants leaderpanel has become a key market barometer through its usage in the BMBI," says Emile van der Ryst, Key Account Manager – Trade & DIY at GfK – an NiQ company

“As accurate a measure of RMI as it’s possible to get.”

“The relaunch in the October BMBI report,” says **BMF Chief Executive John Newcomb**, “was a significant step forward in establishing reliable statistics across construction. The BMF’s Builders Merchant Building Index (BMBI) is the closest measure there is of Britain’s small builder and trades market, and **the best proxy we have to the important residential RMI (Repair, Maintain, and Improve) market.**”

“BMBI is as accurate a measure of the market as it’s possible to get. That’s one reason we call GfK’s Builders Merchants leaderpanel, ‘gold standard’ data. And why so many decision makers and influencers regularly spend so much time poring over the reports and video debates from the BMBI Experts on www.bmbi.co.uk.”

Mike Rigby, Managing Director of MRA Research which produces the BMBI report says: “Once you track over 90% of builders’ merchants’ sales of building materials to builders and tradespeople the numbers are, practically speaking, the market itself, not an estimate or approximation of it. That’s a crucial distinction.

“It’s not like a survey or poll which takes a small slice of the market, which is intended to represent the market, and then scales up. However sound your sampling and rigorous your methodology, there’s a world of difference between scaling up from a small sample and reporting on 92% of actual sales to the market.”

“The relaunch in the October BMBI report... was a significant step forward in establishing reliable statistics across construction.”

BMF Chief Executive
John Newcomb

Overview - 1

January value sales were -2.1% down from January 2023, prices slightly up (+1.1%).

Now based on 92% of actual sales in the market (up from 80%, see page 7), Total Builders Merchants value sales were down -2.1% in January 2024 compared with the same month last year. Volume sales were -3.2% lower with prices slightly up (+1.1%). Nine of the twelve categories sold more than in January 2023, led by Workwear & Safetywear (+18.3%), Landscaping (+6.2%) and Decorating (+6.1%). Two of the largest categories, Heavy Building Materials (-3.8%) and Timber & Joinery Products (-6.3%) were among the weakest. With one more trading day this year, like-for-like sales (which take trading day differences into account) were down -6.5%.

January 2024 v December 2023

Total Merchants sales were +41.2% higher in January than in December 2023. All 12 categories sold more. Volume sales were +44.2% higher while prices were down -2.1%. Three of the largest categories were substantially higher: Landscaping (+52.2%), Timber & Joinery Products (+43.8%), and Heavy Building Materials (+42.5%). Services (+19.2%) grew the least. With six more trading days this month, like-for-like sales were +2.7% higher.

January Index:

January's overall BMBI index was 83.4. Six of the twelve categories exceeded 100, with Workwear & Safetywear (127.5) ahead the most, followed by Plumbing Heating & Electrical (112.2). Seasonal category Landscaping (62.5) indexed the least. With one more trading day, the like-for-like Index was 77.8.

Last three months year-on-year

Total sales in November 2023 to January 2024 were -5.2% lower than the same period last year. Volume sales were down -9.3% and prices up +4.5%. Six of the twelve categories sold more led by Workwear & Safetywear (+11.2%). The three largest categories, Landscaping (-2.6%), Heavy Building Materials (-6.9%) and Timber & Joinery Products (-9.2%) were among the weakest. With one more trading day this year, like-for-like sales were down -6.7%.

Total Merchants sales in November 2023 to January 2024 were -5.2% lower than the same period last year.

Volume sales were down -9.3%. Prices were up +4.5%.

GfK's Definition of Builders Merchant Panel

Generalist Builders Merchants definition:

- Builders Merchants handle an extended range of building materials and components (e.g. doors, windows, interior furnishing materials, insulation materials, tiles, cement, mortar, adhesives, sealants, nails, hardware products, pipes, ironware, paint) and generate their turnover with professional end users. Only multiple merchants are considered; they are defined as having more than 3 outlets and a turnover of greater than £3m p.a.
- This excludes branches that generate all their sales from specialized areas such as Civils, Tiles and Tools. Estimated coverage of this channel sits at 92%.

BMF (Builders Merchant Federation) Forecast Report

BMF Forecast Report

Winter 2023 edition

Builders Merchants Industry Forecast Report

The latest forecast report of the BMF's Builders Merchants Industry Forecast, covering Winter 2023 onwards, is available now.

While Builders Merchants Building Index (BMBI) data, which is provided by GfK and is based on actual sales category performance, has enabled users to see which products and regions are currently growing, the forecast report takes this one stage further to meet the industry's need for accurate forecasting.

The BMF forecast model incorporates several lead indicators to signal future events that will impact our markets.

Using BMBI data coupled with advanced modelling techniques the BMF has developed a channel-specific forecasting model to show what is likely to happen in the next 12 months, making it possible for merchants and suppliers to forecast their customers' requirements more accurately.

The report is updated on a quarterly basis, with the Winter 2023 edition now available. The forecast report and its previous editions can be downloaded by BMF members free of charge – once logged in – [here](#).

Non-members can purchase the report by contacting Thomas Lowe on 024 7685 4994 or email: thomas.lowe@bmf.org.uk
